DETAILED ACTION

Election/Restrictions

- 1.1 This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Species A: LCD Device embodiment one, as shown in Fig. 1-5 and at pages 26-41 of specification.

Species B: LCD Device embodiment two, as shown in Fig. 6-9 and at pages 41-54 of specification.

Species C: LCD Device embodiment three, as shown in Fig. 10-13, and at pages 54-65 of specification.

Species D: LCD Device embodiment four, as shown in Fig. 14, and at pages 65-70 of specification.

- 1.2 Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.
- 1.3 Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
- 1.4 The following claim(s) are generic: no claim is believed to be generic.
- 1.5 The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: the species cited above contain mutually exclusive structural limitations and lack unity of invention.

Art Unit: 2883

- 1.6 Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.
- 1.7 The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
- 1.8 Any inquiry concerning this communication or earlier communications from the examiner should be directed to Guy G. Anderson whose telephone number is 571.272.8045. The examiner can normally be reached on Tuesday-Saturday 0900-2200.
